358 FULL-FACE OXYGEN MASK

YOUR MASK UPGRADE IS READY

TAKING CREW OXYGEN MASKS TO THE NEXT LEVEL

Safran Aerosystems new 358 Full-Face Oxygen Mask and retrofit kit take the current 358 mask and separate smoke goggle system to a new level of safety and performance. With the smoke goggle integrated with a comfortable

mask, the user can now achieve the required one handed donning in less than 5 seconds. Replace the Legacy 358 series masks or upgrade the existing masks in the field with the appropriate retrofit kit.

ADVANTAGES & BENEFITS

- **Safety during an emergency**

- > Integrated smoke goggles eliminates the chance of goggle separation, ensuring rapid donning with one hand in less than 5 seconds
- Demist system required to prevent fogging and condensation on the goggles lens.

- **Cost effective solution**

Upgrading legacy 358 masks with the new upgrade kit allows for use of the existing heat harness and oxygen hose systems. Dust cover P/N 806661-01 included with each mask and kit.

- **Rapid Retrofit**

- > The upgrade to a 358 Full-Face mask is a fast and easy 10 minutes retrofit for technicians
- > Demist retrofit kit P/N 358-1559-1 (NSN1660-01-693-0273)

- **No aircraft or storage modifications**

The 358 Full-Face Oxygen Mask may be conveniently stored on the approved 358-643E-1 hanger and operates with the same regulators and portable oxygen systems.

- **Approved and qualified**

The 358 Full-Face Oxygen Mask is certified by the FAA per TSO-C78, C89 and C99. It is also approved by the US Air Force as a replacement for the legacy 358 Oxygen Mask and separate Smoke Goggle.

- **Geared up to Go**

Little to no training is required for operators, maintainers or Aircrew Flight Equipment Technicians. See USAF Technical Order T.O. 15X5-4-10-1 This can be requested by contacting the 406 SCMS/GUEE and the FMS office at Robins AFB, GA

358-1390V-3 (KC-10)	358-1390V-5 (KC-10)	358-1554-3 (KC-10)

CONTINUING COMMERCIAL & MILITARY LEGACY

- **Approved by Commercial Air Frame Manufacturers and the FAA for use on:**

- > Boeing 700 Series transports
- > Douglas DC-8, DC-9, DC-10
- > Lockheed L-100, LM-100J, Jetstar
- > Grumman, G1 and G11
- > Rockwell Sabreliners, HS 125 Gates Lear Jet
and other executive aircraft

- **Qualified on Military Platforms:**

- > All C-130 variants, C-5, C-9B, C-17, C-27J, P-3, RC-135, KC-10 E-3, E-4, E-6, E-8, E-767, All 707's and other Military Platform
